Attached is the revised GW contour map. New Well B1181MW-1 and the Site 19 wells are located downgradient of the former skeet range.

Subject: Skeet range

Hey Ted:

Where is the GW contour map?

It is recollected that a revised GW contour map exists. Could it be submitted electronically to help with the review?

It is appropriate to locate a monitoring well immediately downgradient of a potential hot spot.  
regards.
