East State Street, Floor 5, P.O. Box 028
Trenton, New Jersey 08625-0028

Dear Sirs:

Enclosed for your priority review is **600 Area Work Plan for Vapor Intrusion and Source Investigation** developed by Shaw for the Picatinny and the Army.

The workplan complies with the responses to EPA comments on the 600 Hill Groundwater Proposed Plan and the technical approach discussed at our September 2nd meeting.

My goal is to have the investigative sampling occur before winter season and requesting your comments or approval so this can be done. I am still hopeful that we can public notice the proposed plan this fiscal year.

Please provide your approval and/or comment to me at ted.gabel@us.army.mil

Sincerely,

Project Manager for
Environmental Restoration
