Bill:

Attached are the response to the comments you provided in January on the draft final ROD for Site 78. Also included are tables and graphs that were discussed as part of the meeting last week that supported the MNA decision for this site. The revised maps will be included in the tracked changed documents

Once the responses are agreed to, we will submit an electronic tracked changed document to you as well for approval. Once you "OK" that I intend to have the ROD signed by the Commander.

Thanks.
