Bill:

The responses to your comments on the Draft Final ROD for Site 78 (PICA 13) have been incorporated into the a track-changed version of the ROD text for your review.

Also attached are revised Figures 3 and 4 and new Figure 5 along with the trend plots that have been added to the Final ROD as Appendix B. The RTCs are also attached for your reference. Note that the Table in Section 1.6 of the ROD and the TOC will be updated again after the changes are accepted and the document finalized.

Once you approve these tracked changes, I intend to start the process for signature by the Garrison Commander. Please copy Brian Stempowski (cced above) on any comments (minor, of course) or approval, so he can start the process immediately.

I did not copy either NJDEP or the RAB on this email.

We know that we still need Greg to develop an NJDEP concurrence letter before EPA can sign; ARCADIS has already provided him 'information' for that purpose.
